Token Distribution

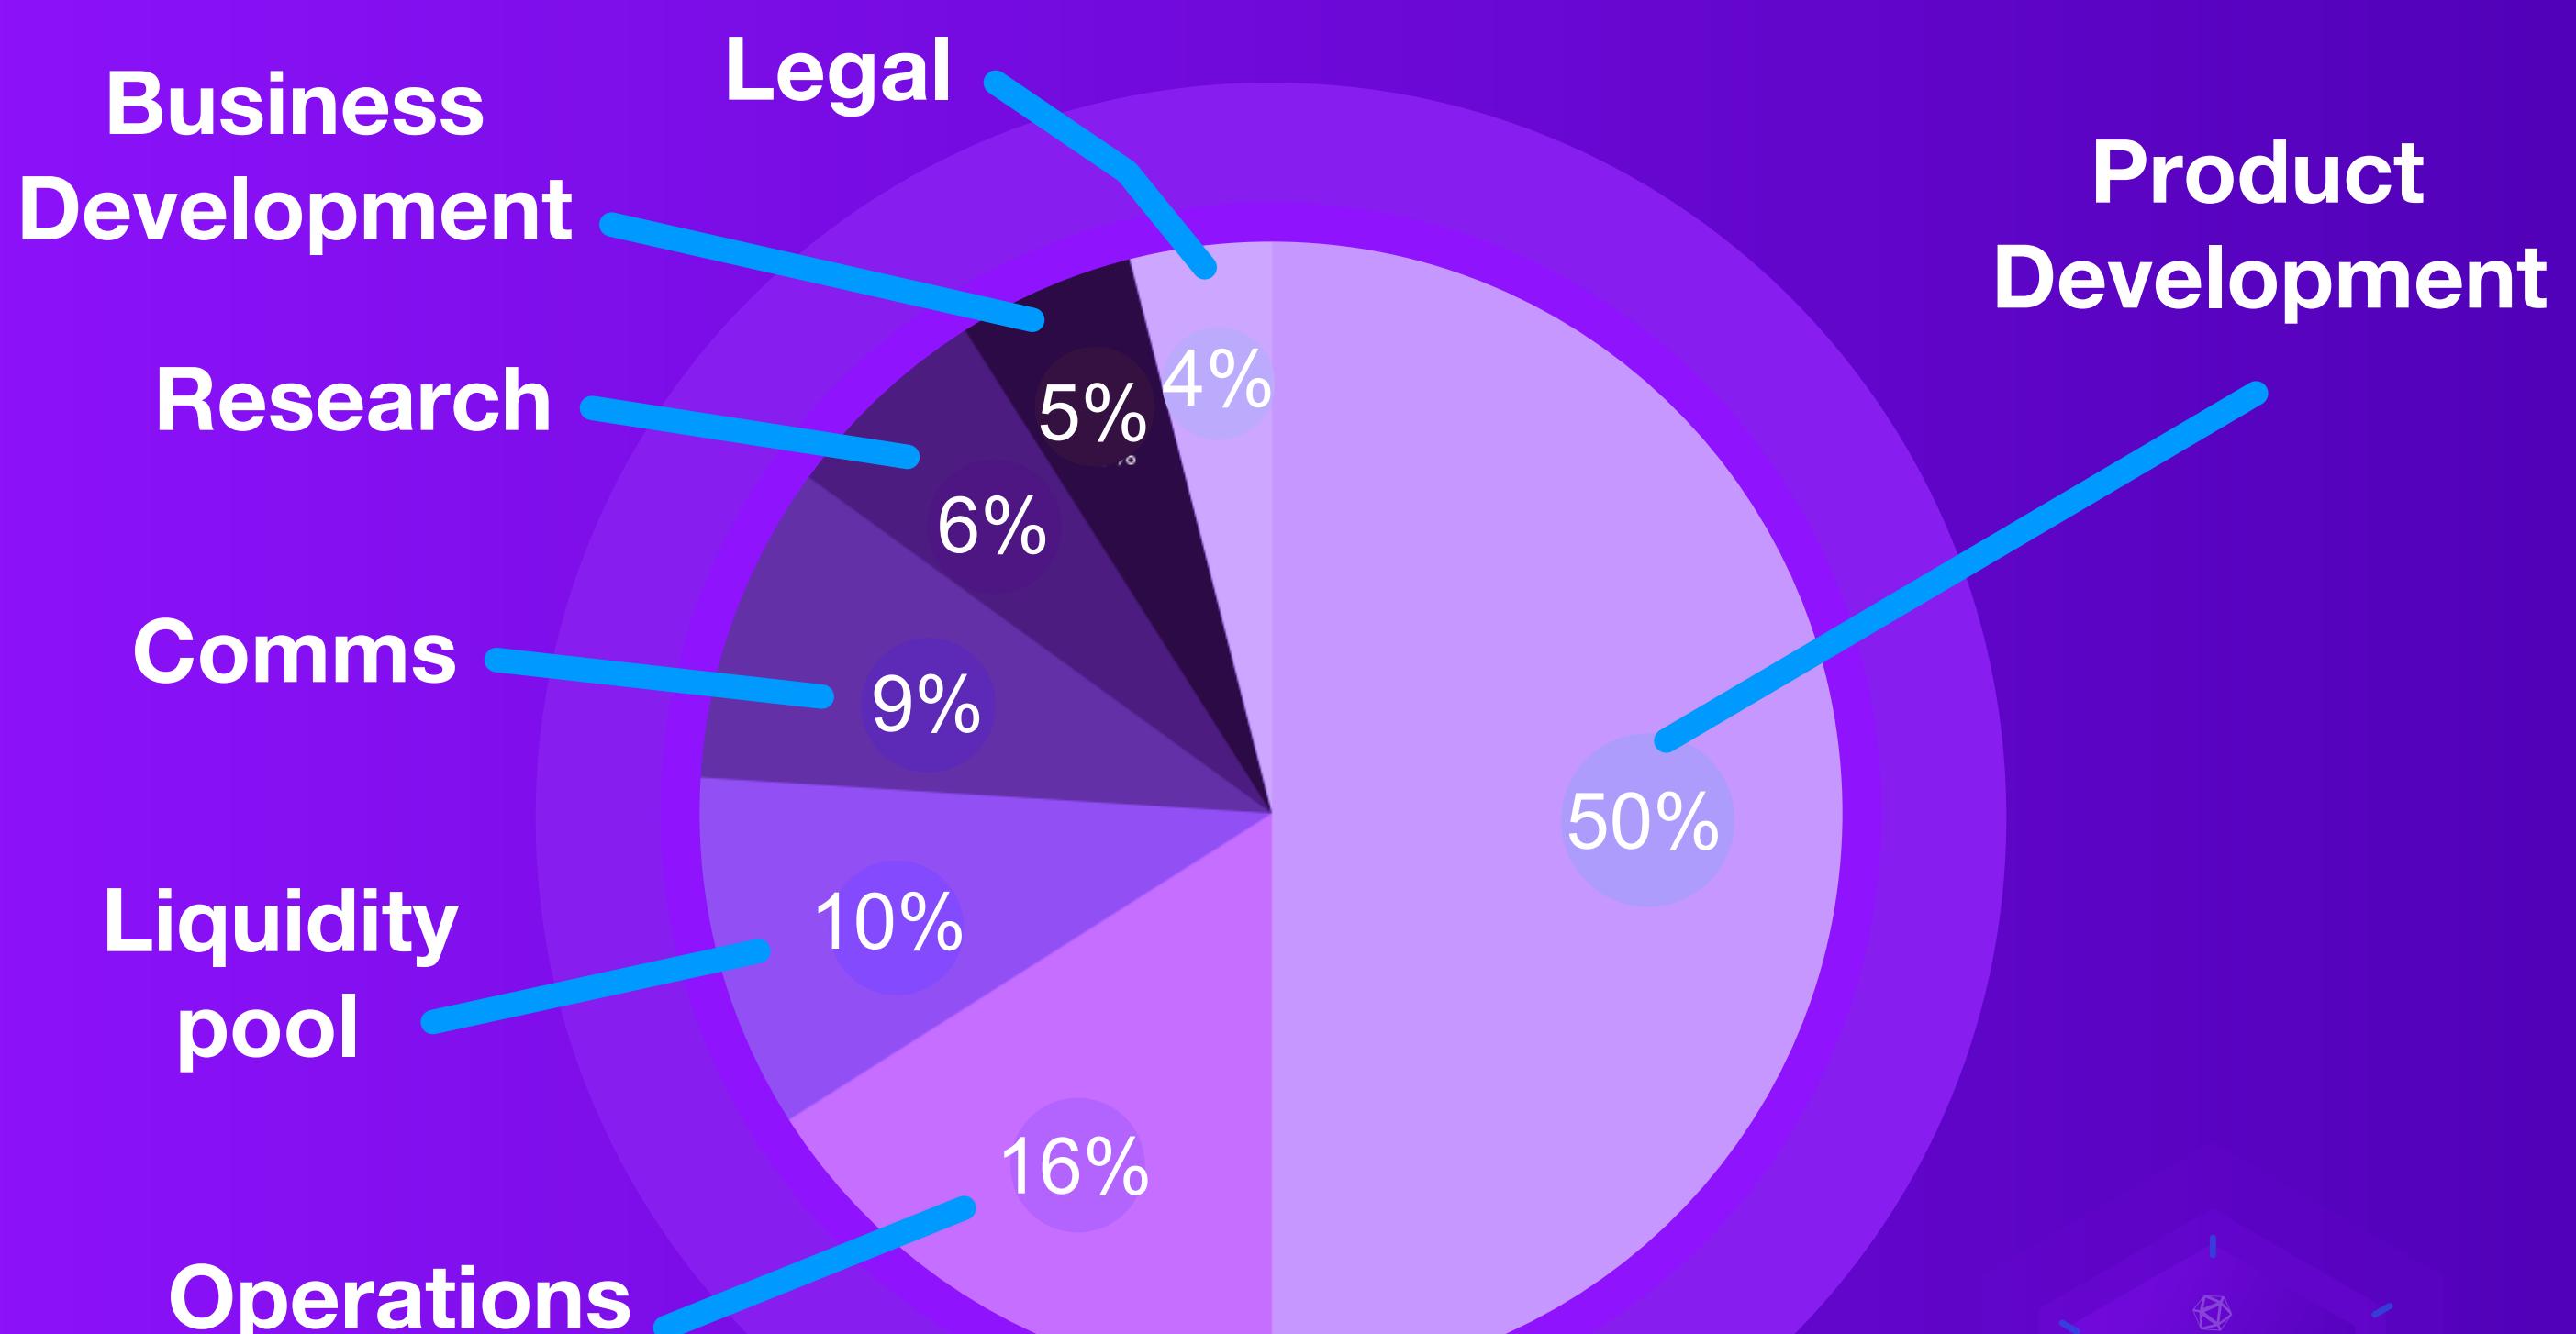

Total expected token supply: 1,000,000,000 PNK

**Tokens to be Sold in This Sale
150,000,000 PNK or 15%**

Expected Expenses of the Cooperative

Sale Mechanics

The Kleros Token Sale will use a one sided exchange, providing large amounts of PNK in stepped orders, beginning at the lowest market rate on offer.

Buyers will be able to take any amount by simply contributing their ETH to the contact address.

Buyers are sent their purchased PNK immediately to their wallet.

Kleros Cooperative is incorporated as a French social enterprise, called a “cooperative company of public interest” or SCIC (sociétés coopératives d’intérêt collectif). This cooperative and community-oriented company operates under French jurisdiction and makes it possible to share the governance of the project.

This legal structure ensures that all funds of the cooperative will be used to develop the project. Founders cannot distribute funds of the cooperative under the form of dividends.
